BASIC / ADVANCED MANAGEMENT

Curve™

An Upgraded Classic

A model of modern design, a game changer in

storage security, the most popular lock in Digilock

history returns with advanced technology

upgrades. Curve revisits a classic and gives it

every modern advantage.

Digilock®

Curve's touch-free RFID smart lock systems secure the workplace with ease. With shared and assigned use capability, systemwide compatibility and minimal management, it's your complete storage solution.

For installations that require rapid and ready access, Digilock's Curve RFID locks offer perfectly secure, contact-free options that fit your needs—no buttons, no keys. Just the swipe of an authenticated credential provides your location and workflow simple, efficient protection.

Wire-free Retrofit with Ease

Engineered for Anywhere

From inspiration to installation, we partner with our customers in a wide variety of industries to ensure that their facilities offer the latest in personal security solutions, providing convenience and peace of mind.

- Workplace
- Healthcare
- Hospitality

- Retail
- Education
- Goverment

- Health & Fitness
- Pro/College Sports
- Manufacturing

Combining quality construction with state-of-the-art security, Curve RFID locks are perfect for the most demanding environments. Easily managed and simple to use, our lock solutions modernize any space with improved flexibility and customizable features.

Curve™

Warranty & Support

- 2-year warranty with lifetime support

*Based on average use.

Customize Your Lock System

1 **APPEARANCE**

Choose from two elegant finishes, Brushed Nickel or Matte Black.

Finish Options

(2) FUNCTIONALITY

Choose the Use Case That's Right for You.

SHARED USE

A simple day-use solution, shared-use functionality lets the User select any available storage space and present a valid RFID credential to lock and the same RFID credential to unlock a Curve unit. When the current user is done and the storage space is vacated, Curve is ready for the next user and RFID credential.

OR

ASSIGNED USE

If you need to assign storage for a longer period of time, assigned use lets management program single or multiple RFID credentials to the lock for the User or Users. Each user presents the assigned RFID credential to open. Then the auto-relock feature is activated requiring the user to simply shut the door.

Locking Options for Shared and Assigned Use

DUAL-USE DEADBOLT

Features a 1/2" (12.7mm) motorized deadbolt designed for either shared- or assigned-use functionality.

SHARED USE   ASSIGNED USE

AUTO-RELOCK DEADLATCH

Features a 1/2" (12.7mm) motorized deadlatch designed for assigned-use functionality.

ASSIGNED USE ONLY

Speak to a Digilock representative for more information on the rear unit option that is right for your use case.

③ MANAGEMENT

Two Management Systems. One Smart, Scalable Solution.

Basic:

Digilock's original, electronic key system provides reliable and cost-effective security and flexibility.

OR

- A single yellow Programming Key assigns up to 6 Manager Keys per system
- Assign up to 20 different Users per lock
- Provides Management override access
- Provides external power against battery failure
- Elapsed-time auto unlock

Advanced:

Digilock's advanced management system is built on the same time-tested, security architecture but leverages the processing power of the mobile tablet and application to provide more powerful tools and easier, more detailed system management.

- A single white Data Key assigns up to 250 Manager Keys or Cards per system
- User/Manager database simplifies assignment/reassignment of up to 250 Users and 250 Managers per lock
- Audit trail and usage data analytics reports
- Simple, visual battery-level indicator
- Real-time clock allows scheduled auto unlock
